January, 2025

With deep sorrow, we announce the passing of James Danaher, owner and President of Hayes Instrument Service, after a brief illness. Jim was devoted to the company for 40 years, beginning his training at the young age of 18, learning to lead the company by its founder, Dan Hayes. He purchased the business 13 years ago with his wife Sue, who will continue on as owner.

We will always remember his tireless efforts to continue the company's success, his humor, and thoughtfulness. We offer our sincere condolences to his family. We're grateful for Jim continuing this tradition of mentorship which will allow Hayes Instrument Service to continue to provide exceptional test equipment calibration and repair services without interruption.

Please do not hesitate to contact us should the need arise.
